

NZIP & PHYSIKOS 2019

Physics for a changing world

15 – 17 April 2019

University of Canterbury, Christchurch

Website: confer.nz/nzip2019

Email: nzip2019@confer.co.nz

We look forward to welcoming you at the University of Canterbury. A great opportunity to check out the new teaching labs in the Ernest Rutherford building!

Speakers will include...

- **Gary Williams**, IOP National Coordinator Teacher Network UK, Editor-in-Chief
- **Céline Bøehm**, Professor of Particle Physics & Head of School, University of Sydney
- **Simon Brown**, Department of Physics and Astronomy, University of Canterbury
"Building a computer that thinks like the brain"
- **Anthony Butler**, Head of Department of Radiology, University of Otago
- **Dave Frame**, Director of the New Zealand Climate Change Research Institute, Victoria University of Wellington

Plus Two FREE public lectures at the University of Canterbury

- 7pm Sunday 14 April **Duncan Steel**, Centre for Space Science Technology *"Space 2.0: How Satellites are Revolutionising our World"*
- 7pm Monday 15 April **Jenni Adams**, University of Canterbury *"Understanding the High Energy Universe"*

Didn't submit a presentation but still want to?

Let us know right away as there still may be a space for you. Poster submissions are being accepted through March via confer.nz/nzip2019

Are you a teacher?

There is a professional development workshop on offer following the conference. View more information at confer.nz/nzip2019
